

## WHO WE ARE

Aurotech is a CMMi-ML3 Development and Services assessed small-business Management and systems integrator firm, provides a wide spectrum of Litigation Support and Information Technology services to federal, state, local, and commercial clients.

Litigation Support

eDiscovery and  
Records Management

## THE AUROTECH DIFFERENCE

Aurotech's approach to eDiscovery is software agnostic; rather than align ourselves with one or two eDiscovery options, our goal is to provide each client with a customized solution that meets its particular needs. To that end, Aurotech continuously analyzes and explores current and new eDiscovery software offerings, in order to maintain our ability to recommend the best options for our customers. As a result, Aurotech's technical team and subject matter experts have certifications in a broad range of eDiscovery products.

### Aurotech provides expertise and services for the following products:
